DX/SWL/MEDIA PROGRAMS update Aug 5:
http://www.worldofradio.com/dxpgms.html

WORLD OF RADIO HITLIST
Hi Glenn, My latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) Belgium - R Augusta Int: Added links to this station which broadcasts via the transmitter of R Onda. (NB: Their website suggests that the "station home" is The Ivory Coast. However, if I list it under Ivory Coast, the station will probably not be easily located in the list, so I've listed it under Belgium, under the R Onda entry. Depending on feedback, I may change this in future).
2) Cuba - R Havana Cuba: Added a second alternate link to RHC live stream (thanks to Jean-Michel Aubier in WOR iog mail list)
3) Norway - R Northern Star: Added link to live stream (Thanks to Zacharias Liangas in WOR iog mail list)
4) USA - KSKO Public Radio: Added link to this station as it is relayed for an hour each week on shortwave via Spaceline Bulgaria.

The next update is scheduled for September
Best wishes and 73, Alan Roe

** BRAZIL. 9664.94, August 1 at 0630, JBA carrier from R. Voz Missionária (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, UT Tue Aug 5 at 0149, I luck out on a day the token English is not run over by sports, which seemed to precede it with excessive enthusiasm. Unfortunately I`m listening via the ``local`` SDR in ``Brasila`` which hardly gets a local-quality signal, only S3/S7, so I can`t fully understand everything. YL voice is talking about Dominican Republic musical influences on Brasil, mentions sertanejo with snippet examples. 0154 it`s over already, outro English, ID as RNB International Service, switch to Spanish, YL voice but Brasilian accent, same subject, mentions cumbia, bolero, bachata. 0159 RNA Portuguese s/off, then IDs for MW and FM frequencies in Rio (Glenn Hauser, OK, WOR)

** CANADA. 346 MCW kHz, Aug 6 at 0616 UT, dash and YXL, my #1 Canadian beacon, SiouX Lookout, Ontario, JBA vs summer noise level, harbinger of improving fall conditions? In nightly bandscans, not detectable even a carrier since June 25; 500 watts (Glenn Hauser, OK, WOR)

** CANADA. 6754 USB, August 1 at 0620, Trenton Military, S9+15, finally back on air. CHR had been unheard for more than a week, nor in daytime on 15034 USB, in frequent random bandscans. Reports were even ``received`` for two minutes but at 0622 claimed time was ``0620 zulu``. Could be worse. Still not on 15034 at 1425 check, while 14670 RCUSB CHU was JBA.

Richard Langley had reported: ``[WOR] Trenton Military Weather --- Noted them back on 6754 kHz USB tonight (1 August UTC) at 02:45 UTC with actual weather reports and correct time. Still there this morning at about 10:30 UTC. Nothing heard (or seen on the waterfall) on 15034 kHz USB. -- Richard Langley`` (Glenn Hauser, OK, WOR)

** CANADA. 6754 USB, Aug 3 at 0125, CHR not off the air, VOLMET for Comox, Victoria, Vancouver; and Abbotsford, which is a 133K+ suburb east of Vancouver even closer to the WA border; in fact my atlas has to place its name on the US side. Have not run across any `no report received`s since reactivation, but Trenton Military TIME is still 2 minutes slow, ``0125 zulu`` when it`s really 0127. Richard Langley, NB, reports:

``While checking 6754 kHz USB last night (3 August UTC) starting around 02:20 UTC, reception was normal with actual weather a but few minutes before 02:30, there was a "Trenton Military out" statement and they were gone. Didn't come back last night and not there today. Nothing on 15034 kHz USB either. -- Richard Langley`` (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, Aug 6 at 1457, Trenton Military not off the air but JBA, timecheck still two minutes slow, ``1455``. One hopes that in matters of life & death, Canadian forces be a bit more accurate (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1040 kHz, August 2 at 0648 UT, WHO has QRM which I would describe now as a ``squeaker`` rather than wobbler, or even whooper. Always accused is the only Cuban listed on 1040: 10 kW R. Mayabeque, Güines. Is it ever in normal programming? (Glenn Hauser, OK, WOR)

** CUBA. 13780, August 1 at 2212, no signal from RHC NF; 15230 is on at S9 with fair modulation for a change, so I can tell it`s Spanish, not Portuguese (Glenn Hauser, OK, WOR)

** CUBA. 13780, Aug 5 at 1419, ballad almost sounds religious, but soon Spanish talk from RHC, S4/S5; and // 15230 S3/S4 but suptorted. Something`s always wrong at RHC.

13780, Aug 5 at 2215, Spanish talk S9+20/30 and // 15230 S9+10/20 but suptorted (Glenn Hauser, OK, WOR)

** ISRAEL. 9963 CW, Aug 3 at 0058, very fast marker, VVV DE 4XZ repeating over and over. This was widely reported in the WOR iog on July 20-21 as a new naval frequency from Haifa, by Alan Holder, Zach Liangas, John Hudak and Walt Salmaniw. ``It has often been suggested that 4XZ is an espionage station rather than one for military communications.`` See https://priyom.org/military-stations/israel/4xz (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 AM, Aug 3 at 0109 and still 0124, pirate music S9+20 vs HSNL of S9+10/20, OPOB. Reported here as Liquid Radio on 6924.9:
https://www.hfunderground.com/board/index.php/topic,148236.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, August 4 at 0517, JBA/carrier, presumed Station YHWH. Have not heard exactly how he IDs lately, but letters Y-H-W-H avoids the thorny issue of which vowels to insert, other wacky religionists dispute over (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, YHWH: Ron Howard replies to my previous report with a clip of Josiah starting with ID; and you can hear how his views are *anti*-Christ, altho he`s often referred to as ``religious``:
``Hi Glenn - YHWH (7475) at 0344 UT, on Aug 5, heard via Kiwi SDR remote at Palomar Mt. #1, So. Calif., with ID. My remote audio -
https://app.box.com/s/xuf5skh5051ulrs59jrfnbn8jorbrw5j
Ron, Monterey, Calif.`` (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1640 kHz, July 31 at 1820 UT, routine midday AM bandscan discovers, despite my huge local noise level, that KZLS is off the air? Or rather outside on the portable DX-398 with less noise, there is a JBA carrier on 1640, rather than blasting in as it should with stupid sportstalk // 1390 KCRC. Can`t tell if there be any modulation on the carrier. Still inaudible 0133 UT August 1 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1640 kHz, August 1 at 0656, KZLS is back on and // 1390 KCRC with sports talk, but not enough signal to totally overcome noise level. Underpowered? Also still on at 1455 check (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1680, Aug 6 circa 1930 UT, peaking at crossroads of US81 & US 412 = S Van Buren and W Owen K Garriott in Enid, rock music and promo of classic rock, did not hear ID as Virtual DJ Radio this time, but sounds like the same as usual; for the record (Glenn Hauser, OK, WOR)

** SCOTLAND [non]. 5850, UT Sun Aug 3 at 0110, S9+30/40 of Copland`s Appalachian Spring, as sked on this fortnight`s `Encore` via WRMI (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Fri Aug 1 at 2200, SFR North American frequency still AWOL, but token English well audible S9+20/30 direct on S American 17715; 15520 and 15390 also on air much weaker. Preview topic ``Otoño Mágico`` festival among others. 2201 news leads with denunciations of famine in Gaza. 2203 summary of several wildfires in Spain, some being contained, others blamed on arson; 1/3 of Spaniards cannot afford to travel during the holidays. Note that thruout the newscast, there is a musical bed, briefly brought up in pauses between items: may be pleasant, but seriously? Then it`s NK Cole with ``Autumn Leaves`` to intro the fiesta feature, starting with the one in Cáceres province – but not until November. I guess they just can`t wait for Fall once it`s August. His song also continues to mix with the item (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Mon Aug 4 at 2215, dead air in token English to N America from SNR; but the other three well audible: 15520.001 S9+20, 15389.992 S9+15 and 17715.014 S9+15 all into UTwente. By 0020, only 17715 remains on, VG direct. One wonders if each antenna be hardwired into a certain transmitter; or can they choose which beam is most dispensable? (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Aug 5 at 2216, this REE for NAm is still off, the others, 15390, 15520 and 17715 still on; if it`s Tuesday, must not be English, ho hum (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Wed Aug 6 at 2159, token English from SNR is still OFF the air to N America, the other three as usual audible direct, 15390, better 15520 S8/9+10 and best 17715 S9/+20, going from jazz to TS and English opening, preview features to be about genealogical tourism, and a festival 8-10 Aug for The Boss, ``Born in the U-S-A``. 2202 news: 80th anniversary of American A-bombing of Hiroshima and then Nagasaki. 140,000 killed in Hiroshima then or later; more Gazans killed by a truck, 188 dead of famine [is that all?]; Drumpf threatens EU with 35% tariff, reduced to 15% effective 7 Aug; about asylum-seeking miners/minors in Canarias.

2205 BOMBSHELL announcement: REE`s token English of 3 x 30 min per week is about to become even more token. From Sept 1, only once, Wednesdays at 10 am UT – presumably meaning on the radio, but you can still listen online, or satellite? at other times. Go to www.RNE.es – Will need to listen again to get exact wording.
https://www.rtve.es/play/audios/english-language-broadcast/
They will hardly need TWO English announcers any more. 2206 genealogical tourism, new? thing to visit ancestral locales (Glenn Hauser, OK, WOR)

** TURKEY. 11785, August 1 at 2157 and several chex later in hour, no signal from VOT English to N America; nor at 2227 into UTwente, nor on acidentalternate 9875. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.008+, Sat Aug 2 at 2200, VOT not off the air, S9+45/50 into UTwente, opening English (Glenn Hauser, OK, WOR)

** TURKEY. 9870, Aug 3 at 0056, VOT IS & Spanish IDS, S9+20/30 direct. 01-02 broadcast is 250 kW, 252 degrees from Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 9750.018-, Sun Aug 3 at 1855, VOT S9+40/50 into UTwente with `Letterbox`, Cemre first talking about forest fires, including near Ankara, TRT, temps 42+C last weekend, hot inside the office too. 1) Andrew Kuznetsov, Riga, Latvia. 2) Jayanta Chakraborty, India, several emails this week; gets best on 7275, the 03 frequency backwards to NAm, altho they do not point that out. 3) Christer Brunström, west coast of Sweden. 4) Mikhail? Rapaszok?, Gdynia, Poland, about a destroyer ship in a museum. 1906 that is all, 1907 theme (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Aug 4 at 2215, NO signal from VOT English for us, into UTwente, nor accidentalternate 9875. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.003+, Aug 5 at 2219, VOT not off the air, S9+10/20 direct but JBA. At 2241 into UTwente when measured, S9+50 but undermodulated music. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.023, Aug 6 at 2158, no signal direct from VOT, erroneous at Emirler, so I concentrate on SPAIN, q.v.; but is on the air at next check 2208 already with the 2-minute multi-lingual ID filler reel, so there must not have been much olds; 2210 music. There is an annoying het/squeal not a constant pitch on the plus side, roughly 11785.4, same on both my antennas. At 2230 into UTwente when measured, S9+55, same squeal, so I think it a transmission defect rather than QRM, erroneous at Emirler. 2238 & 2246 ``always-by-your-side`` promo twice with music between. 2253 s/off as if 17620 at 1230, something`s always awry at Ankara. 2254 IS. 2256 pause and restart IS with extraneous German IDs, erroneous till 2258.5* (Glenn Hauser, OK, WOR)

** U S A. LW/MW beacon bandscan, Aug 5 at 1410+ UT daytime, noise level extreme, but reduced by maybe 1 S-unit by turning off a household device, allows me to redetect/reconfirm several of my regulars; including some carriers only indicated by ? previously IDed occupants, with listed watts:
255 SW StillWater OK 25;
293 FBY FairBurY NE 25;
329 PMV PlattsMouth NE 25;
332 IC wIChita KS 400;
338 RYN? Tucson/RYaN AZ 400;
344 JL? JopLin MO 25;
384 ? [must be something else, since JB Lumberton/Jifel NC is only one listed, 25 W; not reported since 11/24]?;
392 FMZ? FairMont/Beklof NE 25;
395 CA Newton/Harvs KS 25;
404 HU HUtchinson KS 25;
407 HRU HeRington KS 25;
419 ? [GB Great Bend KS 25]?;
420 PK? Olathe/Herbb KS 25;
515 PN PoNca City OK 25;
(Glenn Hauser, Enid OK, WOR)

** U S A. 7615 USB, Tue Aug 5 at 1411, a Civil Air Patrol net with colorful tactical calls, NCS being Fast Runner 33 TCTF, taking checkins, trying to arrange relays for traffic. Others mentioned, not

necessarily heard themselves: Mockingbird, Yellow Brick 17, Clear Skies. Per this 2009y roster, Mockingbird is Mississippi; Yellow Brick is Kansas, but can`t find the others: https://forums.radioreference.com/threads/civil-air-patrol-hf.146257/#post-1083762 (Glenn Hauser, OK, WOR)

** U S A. 18157.5 USB, Aug 3 at 1454, W3FF in California, has a lawn leprechaun, much stronger than several contacts, on the HFQSO.com Activity Net; and as shown on that website, q.v. Budd in northern CA. QRZ.com:
``W3FF USA flag USA, BUDD L DRUMMOND, 2390 TEMPLETON DR, REDDING, CA 96002`` - More about him and the net, supposedly not untl 1730: https://www.qrz.com/db/W3FF
Condx are horrible, mostly JBA carriers in BC bands except 9930 WTWW; and no hams audible on higher bands (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2305 monitoring: confirmed UT Thursday July 31 at 0130 on WRMI 5010, S9+5/15 into Bonaire SDR.

WORLD OF RADIO 2306 contents: (Armenia), Brasil, Canada and non, China, Cuba and non, (Estonia), (Europe), Germany, Indonesia, Iran non, Korea North & South and non, Kurdistan non, Lithuania and non, North America and non, Russia and non, Spain, (Taiwan), (Turkey), (UAE), UK, USA; unID 7235; propagation outlook - (countries mentioned along with others not in order)

WOR 2306 available from 0126 UT Friday August 1:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2306 monitoring: not confirmed UT Saturday August 2 at 0300 on WTWW 5085: ``George advises me that a relay failed and they had to switch transmitters, so 5085 is off and will not be able to carry WOR after all tonight at 0300 UT Sat. I appreciate his trying and keeping me informed. Glenn``

Confirmed Saturday August 2 at 1445 the 1430 on SW Gold Radio, Germany, 6160.000+, S9+5 into UTwente.

Also confirmed Saturday August 2 at 1600 on WRN North America stream.

Also confirmed Saturday August 2 at 1732 the 1730 on SW Gold Radio, Germany, 6160.001-, S9+15 and 3975.001-, S8/S9 into UTwente.

Not confirmed circa 1930 Saturday August 2 on WA0RCR, 1860 AM, MO, inaudible into some IL SDRs, not even a new? one in Madison, right next to St Louis.

Confirmed Saturday August 2 at 2000 on WRN Europe stream. Next:

2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;
2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [new];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2306 monitoring: confirmed Saturday August 2 at 1930 on WRN North America stream.

Also confirmed Saturday August 2 at 2000 on WRN Europe stream.

Also confirmed Saturday August 2 at 2100 on WRMI 9395, S9/+10 into Knoxville SDR; a rather rough start a few words of another show first.

Also confirmed Saturday August 2 at 2230 on WRMI 15770, S9/+15 into UTwente.

Also confirmed Saturday August 2 at 2343 the 2330 on IRRS/IRN/IPAR/NEXUS/IBA webcast.

Also confirmed UT Sunday August 3 at 0320 about 7 minutes into so the 0315v started circa 0313 on WA0RCR, 1860 AM, Wentzville MO, audible vs HSNL at distant Knoxville TN SDR.

Still not on WRMI 9955 Sun at 1030, rather `Classic Redneck` nonsense; WOR presumably on webcast, unchecked.

Confirmed Sunday August 3 at 1916 the 1900 on IRRS SW via AM Italia, 1322.994+, noisy S6/S7 into UTwente. Still not on 918 or 207 kHz. Next:

2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;

0030 UT Wednesday WRMI 9395 to NNW [new];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2306 monitoring: confirmed Sunday August 3 at 2112 the 2100 on WRMI 15770, S7/S9 but noisy into UTwente.

Also confirmed Sunday August 3 from 2131 on SW Gold Radio, Germany, 6160.000- S8/S9 and 3975.002-, S9+5 into UTwente.

Also confirmed Sunday August 3 at 2300 on WRMI 9395, S9+10/20 direct.

Missed checking Sun Aug 3 at 2330 on WRMI 9475; anyone hear it?

Confirmed UT Monday August 4 at 0040 the 0030 on WRMI 7780, S9+35/40 into south TX SDR.

Not confirmed UT Mon Aug 4 circa 0300 on Area 51 webcast. Previous program chopped at 0300 for 5130- s/off, but music continued on webcast thru following hour, no WOR.

Confirmed Monday August 4 at 1938 the 1931 on SW Gold Radio, Germany, 6160.001- S9/+20 and 3975.001+ S9/+15 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [new];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2306 monitoring: confirmed UT Tuesday August 5 at 0330 on WRMI 7780, S9+30/35 into S Texas SDR. Beamed SW from Okee, I never get such a strong 7780 signal here to the NW.

Also confirmed Tuesday August 5 at 1300 on WRMI 9955, S8/S9 direct but JBA.

Also confirmed Tuesday August 5 at 1405 the 1400 on WRMI 9955, S3/S8 JBA direct.

Also confirmed Tuesday August 5 at 2020 the 2000 on IRRS SW via AM Italia, 1322.994+, S7 into UTwente, still not on 918 or 207 kHz. Next:

2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [new];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2306 monitoring: confirmed Tuesday August 5 from 2331 on SW Gold Radio, Germany, 3975.003-, S8/9+5 into UTwente.

Also confirmed UT Wednesday August 6 at 0030 on WRMI 9395, S9+10/20 into Knoxville remote.

Also confirmed Wednesday August 6 at 1931 on SW Gold Radio, Germany, 6160.001- S9/+15 and 3975.002+ S9/+15 into UTwente.

Also confirmed Wednesday August 6 at 2100 on WBCQ 7489.92 after TOMBS, ID; Maryland SDR had heavy ute? noise QRM on minus side, unsure if local, mostly evitable by USB tuning. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks for financial support this week from Sebastian Schlüter, Lingen, Germany, a generous contribution via PayPal, to woradio at yahoo.com

One may also contribute by MO or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. Correxion! Originally wrote ``9320/9340``; fixed: 9930, July 30 at 2215, WTWW S9+40/50 direct, but NO widespread splatter unlike yesterday, not even +/- 12.8 kHz discrete spurs, just a bit of raised noise 9920/9940 (Glenn Hauser, OK, WOR)

** U S A. 5085, UT Sat August 2 at 0102, this WTWW is on, VG S9+10 into NH SDR. And George tells me it`ll be on for WOR 2306 at 0300. This airing succeeded every week in July, so I`ve now labeled it `usually` instead of `occasional` (Glenn Hauser, OK, WOR)

** U S A. 9905-9955, August 1 at 2157, approx. range of noise field out of 9930 WTWW, so WRMI and I barely escape it at least on USB (Glenn Hauser, OK, WOR)

** U S A. 5085, UT Sun Aug 3 at 0113, WTWW not off the air, S9+30/40, no splatter but JBA parasitic spurs plus/minus 12.8 kHz. 0259 ID and 0300 starting `Truth2Ponder` but chop off the air in a minute. I should have asked them to play WOR then since it was impossible 24h earlier (Glenn Hauser, OK, WOR)

** U S A. 5085, Aug 6, George McClintock informs me that this WTWW transmitter has been behaving well lately, so prospects are good for a WORLD OF RADIO appearance UT Saturday at 0300 - but a lot could happen in ~54 hours (Glenn Hauser, OK, WOR)

** U S A. 9455, August 1 at 0636, WRMI with `Classic Redneck Radio` gospel huxter referring to upcoming date for Passover this year, 2015!! So like TOMBS, DGS, PPP, playing back really oldstuff as if current; but maybe this one is not dead yet. Keep a huge library of original sermons to be re-aired for eternity (Glenn Hauser, OK, WOR)

** U S A. 9955, UT Sun Aug 3 at 0057, WRMI S9+20/30 of dead air, then JBM, gradually fading up audio. Sked at 0045 is `La Verdad para el Mundo` (Glenn Hauser, OK, WOR)

** U S A. 7570, Aug 4 at 0519, weather info including current? temp in Miami and other cities, request music. Is this really live? System C sked now shows `Legends` daily 0100-0600 on 5050 & 7570. But transmitter grid atop shows Legends 01-04 on 5050, 04-06 on 7570, and no longer scattered on other frequencies and times (Glenn Hauser, OK, WOR)

** U S A. 17790, Aug 5 at 2212, WRMI S9+10/20 direct, stronger than it should be toward S America, ``we are overcomers`` ! but not BS, the

Redneck and musing, ``before we go off the air in a few days``, and ``America`s going to die before it`s 230 years of age`` -- NOT, whew. If referring to 1776, this crap dates from 2005 or so. At 2221, // 9455 (Glenn Hauser, OK, WOR)

** U S A. Dead air from all these WRMIs, Aug 6 at 0638, 0643: 5850 S9, 5950 S9, 7570, 7780, 9455; 9955 possibly JBM. All scheduled of course, for `Classic Redneck Radio`. Also supposed to be on 5800, 7730, off or too weak to tell. Something`s odd at Okee (Glenn Hauser, OK, WOR)

** U S A. Pre- `AAAWWW` chex of WBCQs Aug 1 at 2352 into NH SDR: 9330 S9+15 with WLCR; 7490 -78 Hz = 7389.922 S9+20 FKB; 6160 off, but trace of CRI, OTHR, but on by *2355 -73 Hz = 6159.927, S9+15 IS & ID loop; 5130 -86 Hz = 5129.914 S9+40 open carrier, and IS & ID loop from 2355, seems synched with 6160 but different programming to follow. 3265 NO signal.

UT Sat Aug 2 at 0000 I`m on 7490, to hear that the following AAAWWW originally aired on May 30, 2025 - guess what, already repeated once on July 4/5 as I reported on both dates. Never mind. Easily searched in my archive by keyword ``flushing`` (Glenn Hauser, OK, WOR)

** U S A. 4840, August 1 at 0617, S9+35/40 of dead air in English from WWCR-3. Program sked
https://www.wwcr.com/program-guides/WWCR_Program_Guide.pdf
displays #3 part only as extremely compressed, illegible until extremely enlarged. Sked M-F at 1-1:30 am Central is `Renewing Your Mind` with R.C. Sprout; misconverted to 07 UT instead of 06. Somethings always wacko at WWCR (Glenn Hauser, OK, WOR)

** U S A. 5890, Aug 5 at 0653, S9+50 of dead air in English, obviously WWCR-4 on for some reason, supposedly off; registered available 02-12 UT but programming only at 02-04 Tue-Sat. Also produces leapfrog mixing product at S9 on 5980, another 45 kHz beyond 5935 (Glenn Hauser, OK, WOR)

** U S A. 12050, Aug 5 at 1417, English sermon from WEWN R. Católica Mundial, but merely a bit during voice-over translation to Spanish. All-English frequency 15610 has been gone for longtime (Glenn Hauser, OK, WOR)

** U S A. 9265, August 1 at 2216-2219, WINB, reciting a bunch of different times and stations carrying program, including ``WHR`` at 9 pm local in several central African countries -- must be imaginary; on WINB 13570, a frequency it has not used for years; several domestic stations; apparently from NJ, ``Church of Jesus Christ of Apostolic Faith``.

Websked effective July 20, https://winb.com/schedule.html
correctly correlating ET with UT! shows this amid a 2.5 hour program:
``ET / UT - - Friday(ET) - -
05:00P / Fri-2100...You Have A Decision To Make
07:30P / Fri-2330...Mike's Vintage Gospel``
but no further info. If a ministry cannot even convey its own schedule accurately, how can they expect anyone to accept their theology?? (Glenn Hauser, OK, WOR)

** U S A. 12050, Aug 3 at 0108, RCM/WEWN not off the air, Rosary in Spanish, S9+10/20. Also JBA at 1445 (Glenn Hauser, OK, WOR)

** U S A. 600 kHz, Aug 2 at 0635 UT, ``600 WREC and 97.1 FM``, back into C2CAM. The 600 I normally hear with C2CAM is WMT in IA, but no sign of it now. WMT major nightlobe goes SW thisaway, while WREC goes WNW/NW from Memphis. 92.1 is a mere translator, W221CR (Glenn Hauser, OK, WOR)

** U S A. 780, UT Mon at 0526, WBBM with very familiar piece about IVF, I had heard/seen 6 hours earlier on CBS TV, i.e. the soundtrack of `60 Minutes` - yes, shown on hard to find plain old program schedule on website https://www.audacy.com/stations/wbbm780/shows/show-schedule as 11 pm Sundays but this is 12+ am CDT Monday.

On air, WBBM ignores AM frequency 780 for 105.9 branding, not so much on web. BTW, per WTFDA FMDB, the *real* WBBM-FM is 96.3, only 3.3 kW with ``rhythmic CHR`` format. 105.9 is really WCFS-FM in Elmwood Park, only 4.1 kW, i.e. minuscule coverage compared to 780 tho 482 m HAAT. In both FM cases, you`d think they could do much better. At least it`s not a mere translator, as for so many ``FM`` AM stations (Glenn Hauser, OK, WOR)

** U S A. 790, August 1 at 0644 tuneby, ``Memphis 790 The Bet``, i.e. WMC, U2 5/5 kW, promoting sports gambling; what a comedown. Night pattern does have a good westward lobe thisaway (Glenn Hauser, OK, WOR)

** U S A. 820 kHz, Aug 2 at 0637 UT, WBAP Fort Worth is getting CCI at almost equal level from another talk station; something must be amiss to be heard here in WBAP`s prime `clear` channel coverage area. Hard to DF but maybe ESE/WNW. Prime suspect is WWBA Largo FL, which I have heard before, U4 50/1 kW, despite neither day nor night pattern favorable thisaway, talk/sports format. Or KUTR Taylorsville UT, U8 50/2.5 kW religious, ND day, night pattern northward (Glenn Hauser, OK, WOR)

** U S A. 1130 kHz, July 31 at 0638 UT, hearing only KWKH Shreveport LA sportstalk. Normally dominated by KLEY Wellington KS rock music, licensed for 250 watts day, ONE WATT night, but obviously cheating for years. Now really off the air, and no signal in daytime at 1441. I assume if and when they revive, will also resume cheating all night (Glenn Hauser, OK, WORLD OF RADIO 2306)

** U S A. 1130, August 1 circa 0635 UT, KWKH has some musiQRM, but unseems KLEY, too weak. Yes, KLEY Wellington KS still OFF at 1535 daytime check (Glenn Hauser, OK, WOR)

** U S A. 1130 kHz, Aug 2 at 0632 UT, C&W music dominant over KWKH sportstalk. KLEY Wellington KS must be back on air after missing a few days and nights. At 0659 goes to dead air; 0700 cuts back on just in time to ID as KLEY, ``Thunder Country``. Format change; last year`s NRC AM Log says ``Super Hits 1130 AM and 104.1 FM``. In the August `Line of Sight DX`, misleadingly titled newsletter of WTFDA, John Zondlo in OKC says: ``Classic Hits KLEY 1130 and K281DI 104.1 Wellington KS have switched to Gold based Country as “Thunder Country.” It actually is in Thunder country: Wichita Thunder, that is. KLEY is a regular here on 1130, mixing with KWKH Shreveport.`` I again must point out that KLEY is supposed to be tantamount to a daytimer with 250 watts and only ONE WATT at night - obviously proudly cheating for months and months (Glenn Hauser, OK, WOR)

** U S A. 1190, August 2 at 0650 UT, honky-tonk piano and country YL vocal, good sig an anomaly, must be cheater, what? 0701 ID as KKOJ and 97.7 FM. That`s a 5 kW direxional DAYTIMER with a lobe to the SW, but evidently enough to the SSW, C&W format in Jackson, Minnesota and the FM is a mere translator K249EO. Fox ``news`` not starting until 0702 - does station automatically delay it? Hard to believe net would start it any later than 0700 or 0701 max. This Jackson is in extreme southern MN a few miles from IA, east of Worthington, near I-90, but address on US 71 (Glenn Hauser, OK, WOR)

** U S A. 1190, August 2 at 0658 UT, while monitoring KKOJ, QRM from EWTN ``radio extra``. That would be KDMR Kansas City MO, U2 5000/500 watts, night pattern with a notch to SSW but we are more like SW (Glenn Hauser, OK, WOR)

** U S A. 1190, Aug 3 at 0614 UT, caught partial ID, ``97.7 and 1190 AM``, country music. I`m quite sure it`s KKOJ Jackson MN again as in my last report 24h ago, 5 kW daytimer in the nightmiddle (Glenn Hauser, OK, WOR)

** VANUATU. 9960, Aug 5 at 1300 & 1405 checking WOR on 9955, I also perceive direct a JBA carrier, presumed can only be RV, modulated or not overnight, as nothing else is listed anywhen on 9960. Aoki shows RV is supposedly *off* at 1102*-*1959 & 0658*-*0958; EiBi only 1105*-*1830. Or possibly harmonic of 4980, 3320, 1660, 830; but no tropicals currently active on 4980 or 3320 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235.0, July 31 at 0638, JBA carrier for third night in a row when no broadcasters scheduled - and even on the indoor random wire due to storms (Glenn Hauser, OK, WORLD OF RADIO 2306)

UNIDENTIFIED. 7235 AM, August 1 at 0623, JBA signal S6/S8, OC or possibly some modulation? 4th night in a row of this, no broadcasters listed. I even searched ITU Monitoring with no hits (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235, August 2 at 0605, I try various remotes to discern where this mystery carrier is coming from. Both W1NT in NH and KFS in CA are getting about the same JBA carrier as I do direct. Not audible at UTwente or Bonaire. Something seems to be there at TWR RSA, but can`t lock onto it. At 0629 I reconfirm the usual JBA carrier direct, S8 = high noise level (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235, Aug 3 at 0623, JBA carrier again from mystery unlisted station. Could others check this out? This is the only hour I`m sure it be on, not before 0600? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235, Aug 4 at 0513, JBA carrier already on direct, contrary to my previous remark that not before 0600. Still no idea whence. QRhaM from QSO on 7238 LSB (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7235, Aug 6 at 0642, still that JBA mystery carrier (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7263 LSB, Aug 4 at 0515, QSO constantly interrupted by naughty ham uttering ``*ucking losers`` and other rude remarx. Seemed to have something to do with Drumpf. They ignore him as if can`t hear him (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7335, Aug 3 at 1035, JBA carrier, checking for RRI-3 since I happen to awaken, as reported but missing from Aoki & EiBi and nothing else scheduled now; also JBA carrier on 7290.0, not RRI Nabire which would be off by now and offset minus; rather CNR1 Beijing scheduled (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7680, Aug 5 at 0022 UT, JBA carrier, can`t make out enough modulation to // 960, but suspiciously = 960 x 8 = local KGWA. Normally don`t hear much harmonicizing from it beyond 1920 or 2880. Nor anything on 3840 now. I`m getting it on the N/S shortwire, closer to site angle, not on the E/W loop (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9172-9218 approx., Aug 1 at 0625, multi-carrier, multi-tones beating against each other, peaking about S7 in the middle. What is this? (Glenn Hauser, OK, WOR)
